SUMMARY

Final-year Computer Science student seeking a DevOps/IT Intern role. Experienced in IT helpdesk support, hardware/software troubleshooting, system setup, and technical documentation. Familiar with Linux usage, Windows setup, basic networking concepts, Git, Docker fundamentals, and cloud/DevOps concepts, with a strong willingness to learn through real operational cases.

WORK EXPERIENCE

Vietnam AI Software Solution - Business Analyst Intern

Nov 2025 - Feb 2026

- Gathered and analyzed business requirements from school stakeholders, including administrators, teachers, and staff.
- Translated business needs into functional specifications, user stories, and system workflows for the development team.
- Worked closely with developers to clarify requirements and prepared project documentation, reports, and presentation materials.

Saigon High-Tech Park - IT Helpdesk Intern

Sep 2025 - Nov 2025

- Provided technical support for hardware and software issues for internal users.
- Assisted in system setup, configuration, and troubleshooting to support stable daily operations.

PROJECTS / PRACTICE

Linux System Administration & Troubleshooting Practice

Tools/Concepts: Linux, Windows, CLI, System Setup, Troubleshooting

- Practiced installing and using Linux, managing files and applications, checking system resources, and troubleshooting common OS issues.
- Reviewed basic differences between Linux and Windows environments, including package management, disk usage, permissions, and terminal commands.

Basic Network & Device Support Practice

Tools/Concepts: TCP/IP, DNS, DHCP, Router/Switch Concepts, Documentation

- Studied basic networking concepts such as IP addressing, DNS, DHCP, gateway, LAN/Wi-Fi connectivity, and common connectivity checks.
- Practiced troubleshooting user-level network issues by checking cable/Wi-Fi connection, IP configuration, DNS resolution, and basic ping tests.

SKILLS

- **Operating Systems:** Windows, Linux
- **Hardware & Software:** PC setup, software installation, configuration, basic troubleshooting
- **Networking:** TCP/IP, DNS, DHCP, gateway, LAN/Wi-Fi troubleshooting basics
- **DevOps Fundamentals:** Docker basics, CI/CD concepts, Git/GitHub, basic cloud concepts
- **Cloud Exposure:** AWS and Microsoft Azure fundamentals (self-learning)
- **Documentation:** Technical notes, user guides, troubleshooting checklists
- **Programming:** Python, SQL, C++ basics
- **Soft Skills:** Detail-oriented, responsible, problem-solving mindset, customer support attitude
- **Languages:** Vietnamese (Native), English (TOEIC 700)

EDUCATION

Open University

Bachelor of Computer Science

Expected in 8/2026

GPA: 3.2/4.0

HONORS & AWARDS

Consolation Prize - University-level Scientific Research Competition
2025
